

Trailer for the 21st AZK: The key lies in our synergy!

Transhumanism, technocracy, AI surveillance mania, biological warfare, WHO control, mobile phone "wargaming"... world events are in free fall. Is there any hope left for humanity? Oh yes! The 21st AZK has shown it: Witnesses to the truth are rising up, global networking is unfolding in over 70 countries, a spring of hope, love, and the strength of faith is dawning. Come and see! Ivo Sasek and family, Daniel Broudy, Michael Brunner, Beate Pfeil, Patrick Wood, Klaus Scheidsteger, and Ana Maria Mihalcea are relentlessly exposing the machinations of the power elites of this era, which are being distorted, concealed, or even censored by the mainstream media. But giving up is not an option: The key to overcoming lies in our synergistic spiritual strength!

A new era has dawned: Groundbreaking solutions, seven fearless witnesses to the truth, concentrated expertise shared free of charge. Global live connection in 70 countries, simultaneous translation into various languages. Art that gives hope like the dawn of spring. Come and see: This is the 21st AZK.

May we introduce:

Ivo Sasek from Switzerland

Daniel Broudy from Japan

Michael Brunner from Austria

Beate Sibylle Pfeil from Germany

Patrick Wood from the USA

Klaus Scheidsteger from Germany

and Ana Maria Mihalcea from the USA.

These luminaries of the freedom movement ruthlessly expose what the power elites our time censored altogether. It is a day of revelation and change!

[Interviews]

Fascinating.

Great energy here.

Exciting, informative and very emotional. Hats off!

From the heart.

I hope that Belgium, France - all my friends, the whole world was watching.

What makes AZK unique is its diversity and internationality.

Kla.TV, AZK - the whole thing and also the voice & counter-voice, everything is just right.

You feel at home - it's like one big family.

Simultaneous translation in I don't know how many languages - and then the video link so that you can be there emotionally, even with a camera. That's amazing!

This togetherness that goes all over the world. My heart, it really ... I felt a love like rarely before.

I also thought it was really neat that your children were so integrated.

The songs. And that Ivo talked.

Goosebumps. I really felt the divine. I felt God here.

Ivo Sasek, his family and many teams have once again made it possible - despite the biggest smear campaigns! The anti-censorship coalition has been countering the ongoing censorship with qualified dissenting voices since 2008.

AZK - one of Europe's largest platforms for free uncensored information.

[Klaus Scheidsteger, author and filmmaker]

I'd like to see anyone else do what the Sasek family does.

Transhumanism, technocracy, AI mania, total surveillance by NANO robots, totalitarian WHO tyranny, mobile phone radiation "wargaming" ... world events are in free fall.

[Prof. Dr. Daniel Broudy, literary scholar, image analyst]

We are definitely test subjects in an experiment.

[Dr. Ana Maria Mihalcea, specialist in internal medicine]

And you can see how the swarm of microrobots eats up the blood. The blood is in distress. It is completely clumped together, and here you can see in a higher magnification how the cells are attacked. This is exactly what the nanotechnology literature says. 30 minutes after I filmed this, the blood is completely dead.

[Dr. Beate Pfeil, lawyer and scientist]

We not only have a totalitarian health regime, but a worldwide development towards authoritarianism and totalitarianism.

[Ivo Sasek, founder of AZK and Kla.TV]

Everyone who is actively fighting for the truth is confronted with the far more tragic reality that these are no longer just bad and evil people, but also spiritual forces of wickedness and death.

Is there any hope left for this human race?

[Ivo Sasek, founder of AZK and Kla.TV]

Now you might be surprised - I'm saying all of this unveiled, you know? - You have spiritual power and everyone who seeks and desires and wishes for justice has spiritual powers over him that simply stand by there and just wait until they receive orders from you. And whether you are a Christian or not is irrelevant here. If you love justice, you have to know that this exists.

[Sasek family song: "Rise up"]

I never want to hear it again: "There's nothing you can do anyway."

This lie wants to destroy you - it is poison in your blood.

[Ivo Sasek, founder of AZK and Kla.TV]

The fact is, when we unite our innermost willpower and begin to proclaim creatively together, because we believe, then all forces will submit to us. The good forces comply - do what we say. And the bad forces comply.

[Sasek family: "Set out"]

We are superior and beyond comparison only in the swarm.

Come, and give the fragment that you can give.

Set out, you have a destiny.

Go out boldly, without fear of losing anything.

The army of heaven is ready to fight with you,

just give the order - you can turn everything around.

[Prof. Dr. Daniel Broudy, literary scholar, image analyst]

If you want to destroy human beings, human culture, you have to start by destroying language. Think also of the major media systems that feed us with the "right" values and attitudes, the accepted ideas and ideologies.

[Dr. Beate Pfeil, lawyer and scientist]

With this cognitive warfare, with this vaccine-demic policy, with this Digital Services Act of the EU, with these insane diseases of the fact-checkers, we end up with a complete reconditioning of people from independently thinking citizens to obedient subjects.

[Men from southern Germany: "Not in our name"]

Now you want to force us to kill each other cruelly,
when in truth we are all brothers.

We say: Not in our name, we will not go to war with you.

We will not bear arms, for they never lead to victory.

We say: Not in our name, we will not go into your war.

We will not bear arms, for they never lead to victory.

[Dr. Ana Maria Mihalcea, specialist in internal medicine]

We are entering the era of the Internet of Bodies, where physical data is collected via a range of devices that can be implanted, swallowed or worn. And ultimately, you will be connected via the QR code and digital identity in order to have absolute and complete surveillance of all living systems on planet Earth. Because it is all about the technocratic, trans-humanist agenda and the bio-digital convergence of humanity.

[Patrick Wood, economist, financial analyst and writer]

The intention was always to integrate AI into the workings of our government. All large agencies have a data flow that feeds into AI. They are not just there so that you have your favorite chat bot to answer all your questions for you. That's not the point at all. But there is now an overarching system to bring it all together in one big, beautiful monitoring system, down to every conceivable aspect of life. We've never seen anything like it. This will revolutionize the whole world.

[Paul Burmann with Dan'Sis: "Only up"]

Anxiety, fear and panic, OFF, YES.

Nothing is impossible, everything is within reach.

Limits, dividedness, OFF and OFF.

I am a warm house for other people.

Love, wisdom, and faith, ON.

Discerning, thanking, rejoicing, yeah, switch it ON.

Every devil, death and evil OUT!

Our path goes up, call it out with me.
We overcome, fight, climb, fly, HIGH!
Come on this journey, let's go!
High, high, higher, higher, higher, higher.
The new world, it's coming, it's going up.

[Klaus Scheidsteger, author and filmmaker]

We inspected people who live near a mobile phone base station and those who live some distance away. Is there any difference - and if so, what are the results of this health hazard? The chromosome analysis in the blood samples provided evidence that the exposure causes DNA damage, which leads to an accumulation of chromosome damage over years. And that is madness. The media also play a major role here and we have this crucial double game with the industry.

[Mathias with Family & Friends: "By authority of our office"]

By authority of our office, as the people, as the voice from the light,
we say to you: That's it, this far and no further.
We have recognized you for what you really are.
Take the sceptre out of your hands, because now is our time.

[Dr. Michael Brunner, lawyer emeritus, initiator of Lawyers for Investigative Education]

The unconditional, indispensable and unlimitable respect for human dignity is the foundation of the rule of law and democracy, which cannot be negotiated. They form the absolute red line that must never be crossed. Man is not the servant of the state. Man is the inventor of the state and the state must serve the inventor and never the other way round.

[Anna-Sophia with Band of Brothers: "A new world"]

But the reality turned out to be different.
We were separated, they said: only for a short time.
Nobody told me that you would never come back,
that it would be like this forever.
How dare you destroy our happiness,
to think the whole world belongs only to you.
You destroy the world with hunger and wars
and take what belongs to us.

[Interviews]

Yes, the truth makes you free, even if it hurts.
Now all the more. Now let's tackle this so we get through this.
You can only win with people like that.
And that is why we will defeat all evil. There is no stopping now.
And I continue to go to Kla.TV.
Too bad it's all over already.
The last words from Ivo. What we can actually build on - I think that was the most important.

[Ivo Sasek, founder of AZK and Kla.TV]

We don't just have the power to heal. We also have the power to bind these people who are being instructed by demonic beings who are developing such nanorobotics etc. It's demonic wisdom, you know? But we have the power, if we stand together, to bind them so that they enter into self-judgment.

[Anna-Sophia with Band of Brothers: "A New World"]

My hope in life never ends.

Full of peace and love, I continue to build the new era.

No one and nothing shall experience what separation means.

Let's make peace in this new era.

Become a key person too! Take part in our contributor evenings and experience the unexpected power of synergy when working together. Or join us in giving the whole world the most precious archives of uncensored educational work in 18 steps!

[Interview]

We are the multipliers! We carry on what has taken place here today.
