

# Mark Zuckerberg: Victim of Censorship or dangerous Global Strategist?

**Mark Zuckerberg, Facebook founder and CEO of Meta, is currently portraying himself as a victim of the cruel censorship campaign during Covid-19. Can his innocent-looking face be lying? After all, with Meta, Zuckerberg is a strategic partner of the WEF, has earned billions from the coronavirus crisis and is working on a very dangerous future for us all. In this program, Kla.TV looks behind the facade and reveals some of Zuckerberg's significant entanglements.**

Mark Zuckerberg, the founder and CEO of Meta, formerly Facebook, is once again making headlines. This time by presenting himself as a victim of a censorship campaign. But who exactly is this powerful man with the friendly face. Is he really fighting for freedom of expression now?

The straight answer is: No, certainly not. On that note we welcome you all heartily to Kla.TV with that statement.

The following statement by Zuckerberg published on January 10th, 2025 will be examined in this program on the basis of hard facts with regards to his actions and entanglements. In this interview he refers to the censorship during the Covid crisis:

[Speaker 1]: "... And I'm generally like pretty pro rolling out vaccines – I think, on balance, the vaccines are more positive than negative. But, I think that, while they're trying to push that program, they also tried to censor anyone who was basically arguing against it. And they pushed us super hard to take down things that were honestly, were true. I mean, they basically pushed us and said, you know, anything that says that vaccines might have side effects, you basically need to take down..." [...] "Then, like, all these different agencies and branches of government basically just like started investigating and coming after our company. It was brutal."

[Moderator]: We note: The well-known fact that governments around the world have exerted huge pressure on the media and forced them to restrict information is well known. Kla.TV and many other educators have been fighting against globally controlled censorship attacks, among others by Facebook, for decades.

Has Mark Zuckerberg made a U-turn all of a sudden and is now helping us fight global censorship? Or does the boss of Meta want to get out of the case quickly now that the Covid scam is increasingly coming to light and its masterminds are brought to justice? Anyone who takes a look at Mark Zuckerberg's background and goals will quickly realize that he is helping to steer the global crisis towards a surveillance dictatorship from which he is hugely profiting.

The financial expert Ernst Wolff posted about this on January 11th, 2025 on X:

[Speaker 2:] "Zuckerberg claims the Biden administration forced Meta to censor during the coronavirus crisis. In fact, the censorship was in the interests of the pharmaceutical industry,

which is backed by the digital-financial complex, of which Zuckerberg himself is a leading representative."

[Moderator:] Let's take a closer look at Zuckerberg's statements and examine a few facts.

### 1. Zuckerberg, the Corona Profiteer

[Moderator:] Kla.TV founder Ivo Sasek already gave an insight into the astronomical "covid wealth growth" of the 657 richest multi-billionaires in August 2021. [[www.kla.tv/20066](http://www.kla.tv/20066)] Their cumulative assets increased to 1.3 trillion dollars within 12 months of the so-called pandemic.

Zuckerberg himself was one of the top 12 crisis profiteers:

[Ivo:] "We come to Mark Zuckerberg, Facebook founder [...] An increase in wealth of 46,500 x \$1 million. These are the numbers! A 46 billion dollar increase - well understood - in this short time. During the coronavirus starting phase, from 18th of March 2020 to October 13th, 2020 - his total estimated wealth grew from USD 54,700 million to USD 101,200 x 1 million, in other words to USD 101 billion. A modest increase of 46,500 x 1 million dollars.

[Moderator:] We note: Mark Zuckerberg benefited immensely financially from the Covid crisis.

### 2. Zuckerberg and the WEF

Kla.TV founder Ivo Sasek [[www.kla.tv/27896](http://www.kla.tv/27896)]: [Ivo:] "The WEF has the task of implementing the agenda of the NWO (New World Order) worldwide with the help of the big corporations. That's how this works. The entire corporate elite is all together at the World Economic Forum, or WEF for short. This includes central pharmaceutical companies that played a key role during corona." "... and although the WEF is not a public institution, it nevertheless clearly dominates the entire world politics quite considerably."

[Moderator:] Mark Zuckerberg is a member and, with his company Meta, also a strategic partner of the World Economic Forum, or WEF for short. He is also one of WEF founder Klaus Schwab's Young Global Leaders. It has long been known that the WEF, together with the Bill & Melinda Gates Foundation, had already simulated the coronavirus crisis a few months earlier in the pandemic exercise "Event 201". At the end of 2019, just a few months after this "simulation", the global Covid-19 pandemic began. This controlled crisis, including the measures taken, went according to script. [[www.kla.tv/25045](http://www.kla.tv/25045)] [[www.kla.tv/27896](http://www.kla.tv/27896)]

The WEF itself worked with its partners to promote censorship, i.e. to massively restrict freedom of expression and thus prevent the machinations from being uncovered. [[www.kla.tv/28200](http://www.kla.tv/28200)]

We note: Zuckerberg, who is a strategic partner of the WEF with his company Meta, must have known exactly what was coming even before the pandemic began. This includes the harsh censorship he is complaining about today.

### 3. Multi-billionaire Zuckerberg & Pandemic-driver Fauci

[Moderator:] Mark Zuckerberg worked closely with the US immunologist and pandemic-driver Anthony Fauci during the coronavirus crisis. His interaction with Fauci in a podcast from 2020 shows Zuckerberg's true stance on the coronavirus measures:

[Speaker 1:] "And it's really disappointing that [...] the credibility of our leading scientists like

you and the CDC is being undermined. And [...] parts of the government have questioned whether people should follow basic best practices like wearing masks."

[Moderator:] A Freedom of Information Act request [FOIA] released emails between Zuckerberg and Fauci in 2021. It appeared that Zuckerberg offered Fauci support to disseminate his information on Facebook. Fauci, for his part, thanked Zuckerberg for his support.

To find out more about Anthony Fauci's dark past, we recommend that you listen to the interview shown here in the back screen: [<https://www.kla.tv/23336>] We note: Zuckerberg publicly supported the pandemic driver Anthony Fauci and thus directly promoted the government measures he is complaining about today.

#### 4. Zuckerberg & Gates ... the "philanthropists"

[Moderator:] High-grade freemasons Bill Gates and Warren Buffett launched "The Giving Pledge", an initiative in which billionaires pledge to donate the majority of their wealth to charity. Mark Zuckerberg and his wife Priscilla Chan joined the initiative in 2010 and promised to donate the majority of their fortune.

Critics of "The Giving Pledge" accuse the participants of claiming tax benefits under the guise of charity. As many donations to private foundations are tax-deductible, the ever-larger super-donations result in tax losses that taxpayers have to pay for. Critics of this association also fear that philanthropists will come to power. This is because the donors are obviously not just social, but partly also active on behalf of a political agenda.

We note: Zuckerberg knows how to present himself well and tries to maintain the image of a generous philanthropist.

#### 5. The Chan Zuckerberg Foundation

[Moderator:] Mark Zuckerberg and his wife Priscilla Chan founded the Chan Zuckerberg Initiative, or CZI for short, in 2015. In 2015, both announced that they would donate 99 percent of their Facebook shares, which represented a value of 45 billion dollars at the time, to this initiative.

However, the Chan Zuckerberg Initiative is not a charitable trust or a private foundation. This is a limited liability company and therefore not a tax-exempt organization, as it is usually the case with many philanthropists. According to Forbes, Zuckerberg thus retains control of Facebook shares owned by the Chan Zuckerberg Initiative. During the coronavirus crisis, CZI provided millions of euros to drive forward the development of Covid treatment methods. In 2018, the Chan Zuckerberg Foundation then partnered with the Rockefeller Foundation. Both initiatives launched a joint project in the name of so-called charity.

We note: Zuckerberg presents himself to the public as a noble donor, but has obviously donated 99 percent of his fortune to himself and is pursuing questionable goals with his charity initiative.

#### 6. Artificial Intelligence and Pharmaceutical Industry

[Moderator:] Zuckerberg makes no secret of the fact that he is interested in "revolutionizing" medical research with artificial intelligence and big data. He has invested billions in this.

These technologies are increasingly being used in the pharmaceutical industry to develop new drugs and promote personalized medicine. Vaccine manufacturers such as Novartis and Pfizer are also working on projects for the application of AI in drug development.

Heiko Schöning's warning on February 17th, 2025 on Kla.TV shows how dangerous this development is. [[www.kla.tv/36620](http://www.kla.tv/36620)]

It was only in January 2025 that US President Donald Trump announced in front of the cameras that there was going to be a 500 billion dollar package. The package contains an incredible application of artificial intelligence: an AI-programmed, individually tailored mRNA gene therapy. Larry Ellison calls it "vaccination against cancer".

"The package is a sham," says Heiko Schöning, who has previously stated that both cancer therapeutics and bioweapons are cytotoxins. The only difference would be the difference in spelling.

Kla.TV reported in numerous other programs on the humongous dangers of the fusion of man and machine planned by the WEF. [[www.kla.tv/18396](http://www.kla.tv/18396) ]

Since Zuckerberg is a strategic partner of the WEF with Meta, it is only too easy to guess what the technology he so strongly promotes will ultimately be used for. We note: Zuckerberg's alleged commitment to our health with the help of artificial intelligence is more than dangerous.

## 7. Zuckerberg and Virtual Reality

[Moderator:] The pandemic accelerated the trend towards working from home and virtual events. Under Zuckerberg's leadership, META had already invested heavily in VR, or virtual reality, as companies and individuals looked for new ways to interact with each other during the social distancing. The dangers of this technology are obvious and play right into the hands of the WEF globalists. In addition to loneliness, depression and other psychological problems, this technology is making it increasingly difficult for us to distinguish between life in the real and virtual worlds. A passive society that loses all sense of reality and that no longer sees the real, global problems can be manipulated and controlled.

We note: Zuckerberg is working at a virtual world that makes us even more manipulable and poses a threat to our sense of reality.

### Conclusion:

Mark Zuckerberg portrays himself as a victim of a censorship campaign during the Covid-19 crisis. Yet he himself is demonstrably one of the masterminds and profiteers of this very crisis. His close ties to the most dangerous people of this time show very clearly whose brainchild he is.

We must not be fooled by his feigned change of political direction. It has long been known that governments around the world hang on the strings of a few masterminds and can be replaced almost at will. Therefore, it does not matter whether he publicly turns to the Democrats or the Republicans. Zuckerberg faithfully follows the line of powerful global strategists and is not only a member, but also a strategic partner of the WEF via Meta.

His future visions are more than scary. The creation of a virtual online universe, combined

with the expansion of AI in all areas of our lives, should light up all kinds of warning signals. Mature citizens who face reality and stick together in the real world are a thorn in the side of global strategists.

[Moderator:] Mark Zuckerberg is not an isolated case. As Kla.TV has shown in numerous reports and documentaries, many of those who are powerful hang on the strings of unscrupulous global strategists. Please help uncover the connection to these masterminds, so they come to light and humanity will no longer be deceived!

from Mathias E./ me.
