

News on Climate Change

... Man-Made Climate Change? Yes, but ... by WHOM and HOW exactly?

- *NATO fuels in our airplanes are harmful to the climate. Aluminium, barium, beryl, lead, cadmium, chromium, cobalt, iron, copper, molybdenum, sodium, nickel, strontium, titanium, vanadium, zinc and tin, and their oxides were found in them.*
- *There is no weather manipulation? In 1978, the UN adopted a UN treaty banning the use of weather manipulation and environmentally harmful technology for military purposes.*
- *There are around 1,000 patents for weather manipulation technologies, these date back to 1892.*
- *A study from 2017 states that the contamination of the biosphere with mercury is increasing massively and that it can only be a consequence of climate manipulation.*
- *3,000 years old Mammoth trees in California are now all of a sudden dying.*
- *As early as 1947 until 1978, 110 weather manipulation programs were proposed and approved by the US Congress.*
- *These toxic cocktail sprays combined with the high frequencies of HAARP, 5G, 4G, smart technologies, are definitely irrefutably changing the Earth's various regional climates.*
- *A US Air Force document from 1996 is titled: "Weather as Force Multiplier: Owning the weather in 2025". This document explains how the 'enemy' can be harmed and the 'friend' helped through weather manipulation.*
- *US patent 4686605 describes in detail how HAARP weapons can be used to generate heat or start forest fires!*
- *The US military has been engaged in hurricane manipulation programs since at least 1947 to the present day.*

- ➔ *With the help of leading military advisors, Nigel Calder co-wrote the book “Unless Peace Comes”. Prof. Gordon J. F. MacDonald, member of President Johnson’s Science Advisory Committee wrote Chapter 17, which is entitled “How To Wreck the “Environment””. It explains how the weather can be physically controlled, already back in 1968!*
- ➔ *1987 – The HAARP basic patent was granted. The title is: “Method and apparatus for altering a region in the earth’s atmosphere, ionosphere, and/or magnetosphere.”*
- ➔ *1991 – Patent filed to emit stratospheric particles to reduce global warming. The patent states that the use of aluminium oxide or thorium oxide is the most suitable for this purpose.*
- ➔ *1999 – The Council of Europe writes a 35-page report on the so-called HAARP project, i.e. the “High Frequency Active Auroral Research Program”.*
- ➔ *2018 – A patent was filed to convert Boeing 737 aircrafts so that they would carry 25 tons of cargo to an altitude of 18,000 meters where the sprayed particles would remain for 2 years.*
- ➔ *Military HAARP facilities worldwide can trigger earthquakes, droughts, storms and floods at any time. In combination with millions of tons of nano cocktails, they can even trigger entire tsunamis.*
- ➔ *WEF CEO Klaus Schwab stated: “I worked on climate change since 1973. Just to tell you because I was the person who gave the 'Club of Rome' the first big platform!”*
- ➔ *In his book “How to avoid a climate disaster”, Bill Gates presents climate change as a very profitable investment.*
